

## EQUIPMENT'S (STATE OF THE ART)

- Olympus Penta Head Multi-viewing Microscope
- Leica Research Microscope with polarizing, phase contrast, darkfield & fluorescence microscopy with digital camera and computer.
- Olympus research microscope with CCTV attachment
- Lieca Qwin Image Analysis software
- Visualizer : for live demonstrations
- Lieca Semi-automatic Microtome
- Ezretriver (IHC) Antigen Retrieval Oven
- Stereomicroscope
- Colorimeter
- X-ray Imaging Equipment
- Sterilization Equipment
